New Yahoo Self Help group.

A new Yahoo self help group has been opened. It is <http://uk.groups.yahoo.com/group/stutteringselfhelp/>. The focus of the group is to allow experienced groups to exchange information; to allow new members to seek information about joining or starting a new group. If you are interested, go to the group and join as a member. The Yahoo group will cover all four corners of the world. Keith 2006-10-23
